

OPEN CALL for the Global Goal Gables Project in the Central Denmark Region

GOAL 2: ZERO HUNGER

Place: Kulturspinderiet, Varde, the Municipality of Varde.
Time: Week 38, 2022.
Art form: Street and Dance. Not Classical dance, but Street!
Location: Kulturspinderiet, Kærvej 21, Stålværksvej 13, Varde.

Description

Kulturspinderiet (The House of Culture Spinning), where the Youth House is located, is the cultural centre in Varde. Among other things, there is a dance school that uses the area, which specializes in street / hip-hop. There is the Music & Art School, 'Smedeværkstedet' (venue), MusicalTalentSkolen (The Musical Talent School), 7-kant (Theater Association), KunstLab (artist workshop), the Association house with sports associations and then the Youth House. Next to the Youth House is 'Skatebowlen', which is one of the biggest successes in the city. It is always full of life with both children, young people and adults who use the bowl.

The desire is to involve the young people in the art project!

The surroundings in the area are very grey.

The desire of the young people and the local actors is that the art project should reflect the creativity that exists on the location. Therefore, one also wanted colour and life in the area.

At the same time, the art project must like to challenge the idea of what a classic gable painting is. The work can be on a noise wall, on the asphalt or on the entrance facade itself.

The youth centre has previously helped to paint their large ramp. Therefore, a project that can also activate and involve the young people is very welcome.

Photos: See the following pages.

OPEN CALL for the Global Goal Gables Project in the Central Denmark Region

Prioritised list of placements:

1. If possible, a temporary "noise wall" will be built towards 'Kærvej'. The plan is for the work to be painted on the noise wall. The youth centre is investigating whether it is possible with a noise wall.
